

SERVICE LETTER #19

(Corrected Copy)

Date: 7 June 1982 --- Revised: 18 October 1982

To: All owners and operators of Robinson R22 helicopters equipped with optional removable cyclic control.

Subject: Installation of Guard for Removable Cyclic Stick

Rotorcraft Affected: R22 helicopters equipped with optional removable cyclic control.

Time of Compliance: Upon receipt of this service letter and enclosed guard.

Background: This guard is installed to prevent possible injury from the exposed end of the cyclic control when the left cyclic control is removed.

---

Install the Cyclic Guard as follows:

- 1) Store the guard in the baggage space under the left seat when flying with dual controls installed.
- 2) When flying with left cyclic control removed, place the guard over the exposed end of the cyclic yoke.
